NEW AND IMPROVED CLOSET PANS.

STEPHEN GREEN AND CO.

IMPERIAL POTTERIES, LAMBETH.

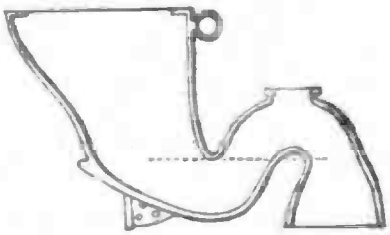
Patent Valve.

These Pans will be found to combine all the latest improvements, with the advantage of having a larger water surface than any other kind of trapped Pan, by which arrangement the sides are kept perfectly clean. The trap is not larger than usual, and has its smallest diameter at the bottom of the Pan, increasing to the end, so that anything passing the neck cannot possibly stop or clog the drain.

Manufactured in superior double-glazed Stoneware, white and smooth inside, at the SAME PRICE AS THE COMMON PAN.

If with Patent Valve, 1s. 6d. extra.

MANUFACTURERS OF THE PATENT SYPHON FLUSHING-BASIN, AND IMPROVED DRAIN PIPES.



TO BRICKLAYERS, PLASTERERS, &c.

COLWILL, BROTHERS (Agent for James Stiff's London Pottery), beg to inform the trade that they have taken extensive premises at No. 28, Berners-street, Covent-garden (opposite "The Builder" Office), for the sale of every description of Glazed Stoneware Pipe Drains, Closet Pans, and Traps, Bricks, Tiles, Chimney-pots, Slates, Cement, Sand, Laths, Hair, Mortar, and every kind of building materials. Drawings and list of prices forwarded on application.

TO ARCHITECTS.

50 PER CENT. is SAVED in PLUMBERS' WORK by the use of JENNINGS'S INDIA-RUBBER TUBE WATER CLOSETS.

They require no service box valve, air-pipe, ball lever, cranks, or cross. Having no copper pan or brass valve chambers, they do not so impure air; in action they are noiseless. References of the highest order can be furnished to large public works and manufactories from many private individuals can be seen on application to the Patentee.

JENNINGS'S LAVATORIES for ASYLUMS and HOSPITALS have been much approved, the cocks all being self-closing cannot be left running.

GEORGE JENNINGS has had some large basins made to his pattern and adapted for his self-closing Cocks, hot, cold, and waste, by Messrs. Wedgwood and Co. They are well suited for the dressing-rooms of the nobility, but being inexpensive they come within the reach of all classes. They may be seen in use at the Society. These self-closing supply Cocks have been well tested; they are in use at the West Derby Asylum, New Wiltshire Asylum, St. Luke's Hospital, Guy's Hospital, at the establishment of Messrs. Hitchcock and Rogers, St. Paul's Churchyard, &c. &c. and in many public schools.

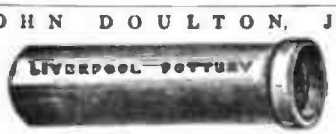
JENNINGS'S INDIA-RUBBER TUBE BALL and other COCKS, for ALL purposes, are now manufactured, will be found by Architects most simple and durable.

For descriptive drawings, references, &c. apply to GEORGE JENNINGS, General Brass Founder, 29, Great Charlotte-street, Blackfriars-road.

STOCK & SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of sanitary improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus, they will enable the "constant supply system" of water service to be made available for the removal of the refuse, by preventing the enormous waste of water in places of this description, to which under compulsion now so strongly and so properly object. By the use of this service-box an ample supply of water is obtained, without the possibility of its being wasted by stopping the valve, weighting the handle, or by other means. It is so constructed that, as long as the discharge-valve remains open, a further supply cannot enter the service-pipe from the main. Drawings and description may be obtained from STOCK and SON, Manufacturers of Plumbers' Brass-work, Sanitary Closets, Rotary Screw-down Taps, Fire Plugs, Gas Fittings, and Church Furniture in iron and brass, Temple-street, Birmingham.

JOHN DOULTON, JUN.



ST. HELEN'S, LANCASHIRE.

The most economical and efficient system of drainage is formed with

DOULTON'S STONE-WARE PIPES.

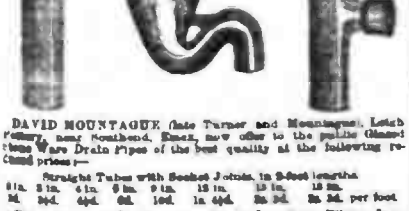
Testimonials as to their superiority have been received from the Borough Engineers of Liverpool, Glasgow, and other cities.

FIRE-CLAY FLUE PIPES,
TERRA COTTA CHIMNEY TOPS, &c. &c.

WAREHOUSE, 70, SOHO-STREET, LIVERPOOL.

GREAT REDUCTION in PRICES.

GLAZED STONEWARE DRAIN PIPES.



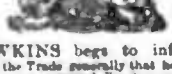
DAVID MOUNTAGUE (late Turner and Mountague), Leigh Pottery, near Southend, Essex, now offer to the public Glazed Stone Ware Drain Pipes of the best quality at the following reduced prices:—

Straight Tubes with Socket Joints, in 2-feet lengths.

3 in.	4 in.	6 in.	9 in.	12 in.	15 in.	18 in.
3d. per foot.	4d. per foot.	6d. per foot.	10d. per foot.	1s. 4d. per foot.	2s. 2d. per foot.	3s. 2d. per foot.

Closet pans 4s. each; Traps 2s.; Bends, Junctions, Filters, Jars, Bottles, Chemicals, &c. &c. at reduced prices in proportion. A discount on the above prices dependent on quantity and mode of payment. Orders received at and executed from his Wharfs, Falcon Wharf, 33, Bankside, Blackfriars; Harrow-bridge Wharf, Stratford, Essex; and at his Cement Works, Orchard-house, Blackwall.

By Royal Letters Patent.



THOS. HAWKINS begs to inform Builders, Painters, and the Trade generally that he has now on hand a large stock of his newly patented Brushes, made on an entirely new principle, and warranted to stand any test. One trial will be sufficient to prove the superiority of these brushes over any other article now in use by the trade. Terms, cash.—Address, THOMAS HAWKINS, 3, Inverness-terrace, Bishop's-road, Bayswater.

REDUCTION of PRICE in UNGLAZED DRAIN PIPES.

Manufactured by CHAS. FRANCIS and SONS, NINE ELMS.

The price in future will be,

6in. 2½d.	per foot for the 3 inch bore.	
6in. 3d.	=	4 =
9in. 4d.	=	6 =
12in. 6d.	=	9 =
15in. 9d.	=	12 =
18in. 1s.	=	15 =
24in. 2s.	=	20 =

These pipes are made under steam pressure, and burnt to great hardness, and are capable of bearing nearly double the hydraulic pressure of ordinary glazed pipes. The principles against red-ware or ornamental pipes are manufactured. And it is well known that glazed earthenware, UNGLAZED, is the oldest material discovered in a perfect state in Rome, Babylon, Nineveh, &c. &c.

Agent for Southampton, R. L. FLUDER, American Wharf.

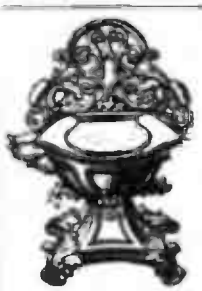
PRIZE MEDAL AWARDED TO PEAKE'S THERMO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for chimneys, baths, valleys, and every part of roofs, for plain or ornamental flowers, for paving and ornaments, of a strong and durable nature, also many other purposes, supplied genuine by THOMAS PEAKE, Inventor of Peake's "Thermo-Metallic", No. 4 WHARF, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate sum by measure. It is solicited that letters be prepaid, and state if Staffordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class E, No. 18, having been at first No. 1111.

PRIZE MEDAL WATER-CLOSETS,

PATENT FIRECOCKS,

Patent High Pressure Bib, Stop, and Ball Cocks.



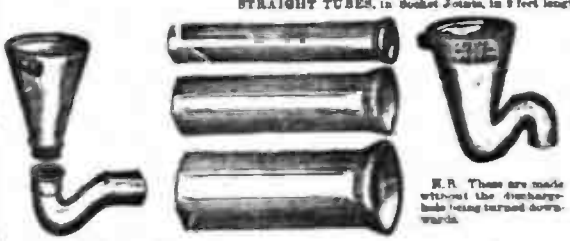
Kirkwood's Registered Tubular Water-closet
Self-acting and Cottage Water-closets.
Bateman and Moore's and Chrimes's Patent Hydrants.
Chrimes's Patent High Pressure single and double.
LOOSE VALVE-COCKS.
Gutta Percha Tubing, Cistern Lining, and other leading articles for
DRAINAGE, SEWAGE, AND WATERWORKS PURPOSES.

May be seen (the Closets and Cocks as fixed ready for use) on application to
THOMAS BEGGS, at the SANITARY DEPOT,
No. 11, Fleet-street (opposite Chancery-lane, London); or to
GUEST and CHRIMES, Brass Works, ROTHERHAM.
Drawings, descriptions, and testimonials will be forwarded, per post, on application as above.

From 30 to 60 of the Closets and 40 of the Patent Firecocks were fixed for use in the Crystal Palace.

JAMES STIFF, MANUFACTURER of GLAZED STONE WARE DRAIN PIPES, BENDS, JUNCTIONS, TRAPS, &c. 28, HIGH STREET, LAMBETH, LONDON. Established 1781.

Water Closet Pans, with Syphon Traps, 7s. 6d. each.
STRAIGHT TUBES, in Socket Joints, in 2 feet lengths.



N.B. These are made without the discharge-hole being turned downwards.

The great advantages attending the use of these articles are now so generally understood, as to render any enumeration of them almost superfluous. Their cheapness, efficiency, and durability, are universally admitted; while the rapidly increasing demand for them proves their estimated superiority over every other kind hitherto before the public for similar purposes.

Inspection is invited to an assorted stock of Drain Tubes, of every form and size, adapted to the various situations for which they may be required; as also to the WATER-CLOSET PANS OF IMPROVED CONSTRUCTION, and to other glass, in surpassing any other manufactured of Brown Stone Ware.

May be had also at Messrs. GLADDISH'S LIME WHARFS, Pedlar's-acre, Westminster-bridge; Clayton's Wharf, City Basin Dock-head, Bermondsey; Danver's Wharf, foot of Battersea-bridge, Chelsea; Frost Wharf, Kingsland; Camden New Town; J. TURNER, 9 South Wharf, Praed-street, Paddington; and at COLWILL, Brothers, 28, Berners-street, Covent Garden.

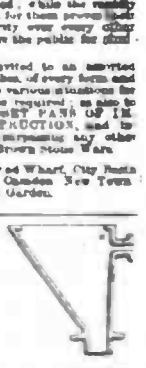
Drawings and List of Prices will be forwarded free, on application.

DOULTON AND WATTS'S

REGISTERED CLOSET PANS IN

ENAMELLED STONE WARE,

LAMBETH POTTERY, LONDON.



These Closet Pans are manufactured in a new kind of stone ware, HIGHLY GLAZED, vitreous, of a light colour, are much improved in form, and are used and recommended by the engineers connected with the General Board of Health.

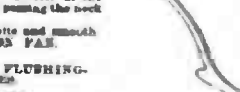
The Traps are smaller at the inlet, gradually enlarging towards the outlet, as a security against the introduction of improper substances into the drain.

They may also be had turned down.

PRICE 7s. 6d. EACH,

The same as for ordinary stone ware, and may be had fitted with copper fans of the best construction at 1s. 3d. each extra.

HENRY DOULTON and CO.'S DRAIN PIPES in GLAZED STONE WARE.



OFFICES—HIGH-STREET, LAMBETH, LONDON, and Granville-street Wharf, Broad-street, Birmingham.
